

PowerSearch

Time saving search solution for Dynamics 365 & Power Apps

The best of both worlds

PowerSearch combines the simplicity of Dynamics 365 search with the advanced features of an Advanced Find!

Increased productivity & user adoption

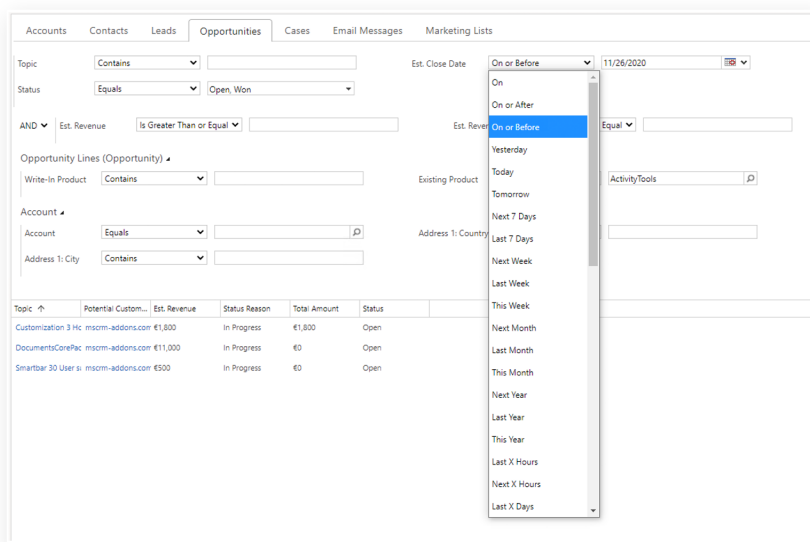

By predefining common search queries, you can save valuable time while reducing the clicks needed to find the requested data.

Reduce complexity

Search across multiple fields and leverage features such as Bulk-Edit and Export to Excel, all within the native Dynamics 365 Grid functionality.

The power of advanced search in a user-friendly package

| Topic | Potential Custom... | Est. Revenue | Status Reason | Total Amount | Status |
|--------------------|---------------------|--------------|---------------|--------------|--------|
| Customization 3 Hc | mscrm-addons.com | €1,800 | In Progress | €1,800 | Open |
| DocumentsCoreHc | mscrm-addons.com | €11,000 | In Progress | €0 | Open |
| Smartbar 30 User s | mscrm-addons.com | €500 | In Progress | €0 | Open |
