

SmartBar

Fast and efficient navigation in Dynamics 365 & Power Apps

Save time & resources

Easily access and manage all your related records in one place, streamlining your workflows and maximizing your productivity.

User adoption

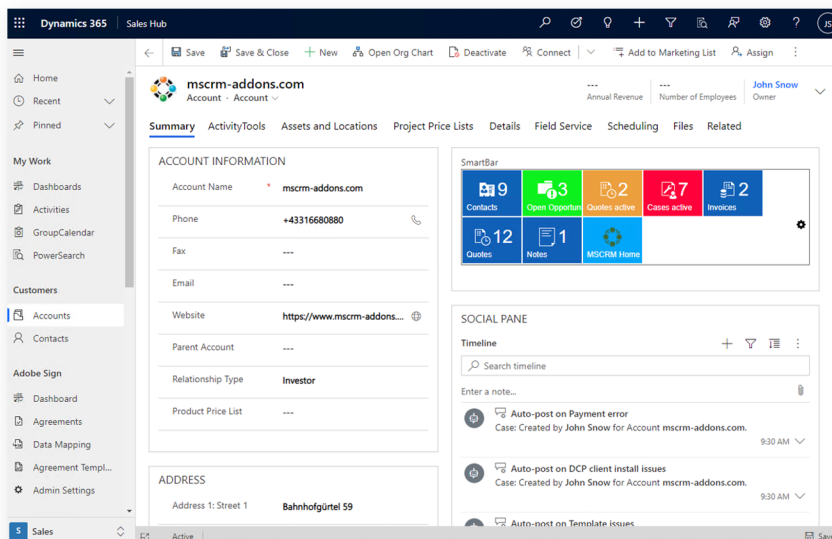

Tailor the SmartBar to your business needs: relevant content, less clutter, and one-click access to your data.

All in one place

Seamless data management with just one click! Accessing related records in a Single Point of Information has never been easier.

Personalized navigation that fits your unique needs

Key features

- Simple navigation between related records
- Count and display number of related records
- Color-coding to draw user attention on relevant items
- Add buttons for relevant views, for example unpaid invoices, or open cases

Ready to navigate Dynamics your way? Start your 14-days free trial!
